

But that  
female  
human...  
What a  
size...

The dwarf  
appears  
elderly so  
I can ignore  
him, but the  
other two...

With an  
appearance  
like that,  
wouldn't the  
men get  
indecent  
thoughts...?

Dazed

Only  
interested  
in Astra

Only  
interested  
in houses

Is it okay  
for these two,  
as men...?!

That seems  
okay, but...  
That seems  
okay, but...!!

# Q&A Corner

■ **Why was Big Sis on the coloured inner cover art not wearing glasses?**

It's kind of like those rare scenes when a girl who usually wears glasses doesn't wear them. Don't you find it nice? I'm just catering to those kinds of personal needs.

■ **Kyuss is homo after all, isn't he?**

He's not homo. It's just an overboard friendship.

■ **Has the direction changed since the series started?**

It hasn't changed at all. It's been consistent since the beginning, and I've only been drawing things that I like or want to draw.

Masks, a person's thirties, non-human beings, glasses, flat chests, tans, big breasts, little girls, Yuri, homo, body hair, animals, shota, old men, I draw them because I like them all. There's still a ton of weird things I want to put out and turn into a ruckus. Like ghosts or zombies.

■ **Are the Commander, Captain, and Vice-Captain all taking a holiday at the same time?**

It... it's just a day trip, so... (Scared)

Nevertheless, "fanservice using the Kraken's feelers" and even "suddenly BBQ" were surprisingly noticed within the story huh, lol. So everyone shares the same thinking then...
